PRINCIPAL'S DESK

Greetings!

Congratulations to the editorial team for releasing this 6th edition of Scoop. As we have seen, it has been a vital piece of the school's ecosystem, as a means of connecting our academic world with the bigger one outside. Our student team and teachers have been taking immense efforts in their co & extra curricular pursuits, and Scoop has been regularly serving as a medium of expression of the same.

I would like to wish the team all the very best, with a quote I recently came across, "Whenever you create something, ensure it is valuable and not vulnerable". I am confident that every product of our school is definitely a value - add to society at large.

Thank you.

PROJECT DAY ACTIVITY

Reduce, Reuse, Recycle

Our KG Students have been busy creating ravishing art and craft projects based on the theme "best out of waste". Through this co-curricular activity, we encouraged our little ones to think creatively and sustainably, by using materials that would otherwise be thrown away.

From colourful collages to cardboard art and decorative bottles, SMSE tiny tots showed us that with a little imagination, anything can be turned into a work of art.

Not only was it a fun activity, but was also about learning the importance of reducing waste, reusing materials, and recycling as much as possible. These are valuable lessons that will stay with them for life.

We're proud of our youngest artists and eco-warriors. Let's all do our part to protect our planet and make it a better place for future generations.
